

# Bowel Cancer is New Zealand's most common cancer

**Over 3000 Kiwis are diagnosed each year  
with bowel cancer - but there's good news.  
If caught early bowel cancer is treatable  
and beatable.**

**If you experience any of these symptoms, talk to your doctor.**

- **Persistent change in bowel habit over several weeks**
- **Abdominal pain, especially if severe**
- **Bleeding from the bottom**
- **A lump in your abdomen**
- **Unexplained anaemia found by your GP**
